Fiscal Year ending June 30, 2015

# Overview

December 17, 2015

To: Employees, Retirees, and Beneficiaries

From: Board of Investment Trustees

The mission of the Board of Investment Trustees is to manage prudent investment programs for the members of the Employee Retirement Plans and their beneficiaries. The County's Chief Administrative Officer is responsible for overseeing the day-to-day administration of the retirement plans.

We are pleased to present this annual report for the fiscal year ending June 30, 2015 on the three investment programs established for the retirement plans.

- The Employees' Retirement System (ERS) is a defined benefit pension plan with net assets of \$3,661.7 million, established in 1965 and closed to employees hired on or after October 1, 1994, except public safety bargaining unit employees and employees electing to participate in the Guaranteed Retirement Income Plan (GRIP). As of June 30, 2015 the ERS had 5,541 active participants and 6,380 retirees and beneficiaries receiving benefits.
- The Retirement Savings Plan (RSP) was established in 1994 as a defined contribution plan providing benefits to all non-public safety and certain public safety employees hired on or after October 1, 1994. As of June 30, 2015 the RSP had \$315.3 million in net assets and 4,609 (3,756 active and 853 inactive) participants.
- The County Deferred Compensation Plan (DCP) is a voluntary plan established pursuant to Section 457 of the Internal Revenue Code. As of June 30, 2015 the DCP had \$352.6 million in net assets and 3,398 participants.

# Market Highlights – ERS Investment Performance

The past twelve months can be characterized by uneven but increasing economic growth as the U.S. enters the sixth year of economic expansion that began in June 2009. GDP fell in the March quarter due to weather related issues but rebounded 4.6% in the June quarter, which was broad-based, with consumer and business spending, exports, homebuilding and government contributing. The manufacturing sector, as measured by the ISM composite, expanded throughout the fiscal year. The housing recovery has slowed. All of the jobs lost during the 2008 recession have been recovered with the unemployment rate declining to 6.3%. CPI rose a modest 1.7%, below the Federal Reserve's 2.0% target rate, giving them the ability to keep interest rates lower for an extended period of time. However, the Federal Reserve is expected to end its bond-buying program over the next six to twelve months as the economy continues to grow and the fiscal drag from spending cuts and tax hikes is fading and business spending is accelerating.

The U.S. equity markets posted strong performance while the international developed markets declined in FY15 (see chart to the right) due to geopolitical concerns and the slowing global economy. Emerging markets trailed both the U.S. and international developed markets due to the slowing growth of China. Commodities, as measured by the Bloomberg Futures Commodity Index, posted a 23.71% loss due to weak global demand and the strong U.S. dollar which pushed commodity prices lower. The Treasury yield curve flattened with long rates declining and shorter rates rising, which reflects investors' long-term inflation expectations and investor's anticipation of looming Fed rate hikes. The Barclay's Aggregate Bond Index rose 1.86% and long duration bonds, as measured by the Barclay's Capital U.S. Long Government/Credit Index, advanced 1.94%. High yield was the worst performing fixed income asset class, posting a 0.54% loss during the fiscal year.

Index Returns  
Year Ending 6/30/15

FY 2015 Returns by Asset Class-Gross of fees

The Board allocates ERS assets to a broad array of asset classes resulting in the following allocation as of June 30, 2015: domestic equities 19.8%, private equity 7.1%, international equities 16.0%, global equities 3.7%, fixed income 25.0%, opportunistic 3.3%, global inflation indexed bonds 10.5%, commodities 3.2%, private real assets 5.1%, and global REITs 5.3%. The chart to the left reflects the returns for the fiscal year ending June 30, 2015 achieved by ERS assets in each investment sector compared to the corresponding benchmark. The Board establishes benchmarks for each market sector, usually an index of securities that represent most of the available investment opportunities within that sector, to evaluate the performance of the investment managers within each sector.

In overseeing the management of ERS assets, the Board has developed sound and prudent investment policies. The Board works to control the risk to which the ERS is exposed while maximizing the potential for long term increases in the value of the assets. The Board's specific investment objectives are to:

- realize the actuarial assumed rate of return of 7.5% annually, over a long term time horizon (for the 2006-2015 fiscal year decade, the annual rate of return on the ERS' investments was 7.7% before fees);
- manage portfolio risk to limit potential downside fluctuations in the value of the total ERS assets; and
- realize as high a rate of total return as possible consistent with the above.

# Employees' Retirement System (ERS)

- **How do I know if I'm a participant in the ERS defined benefit plan?**

Employees who participate in the ERS have the following description on their pay stub next to the bi-weekly contribution amount: *RETIRE*

- **How do I know if I'm a participant in the GRIP?**

Employees who participate in the GRIP have the following description on their pay stub next to the bi-weekly contribution amount: *RET GRI*

- **How is my benefit calculated?**

If you are in the ERS (*RETIRE* on paystub), under County law your benefit is based on your salary, years of credited service, and age at retirement and is not based on the amount you contributed or the investment earnings of the ERS. If you are in the GRIP, your benefit is based on your account balance at time of retirement or separation of service from County.

- **How can I find more information on my benefit?**

Contact the Montgomery County Employee Retirement Plans at 240-777-8230.

- **How does the amount earned on invested assets impact the ERS?**

While your ERS benefit is paid in accordance with County law, you may be interested in knowing about the status of the assets and liabilities of the ERS. Please refer to the chart below for a 27-year history. Your contributions, along with the County's, are used primarily to make benefit payments to retirees and beneficiaries and pay other costs associated with the administration of the ERS (shown as the bottom layer in the chart).

The earnings (shown as the green middle layer in the chart) represent the bulk of the growth in assets over the years. In funding the ERS, the County assumes the assets will earn 7.5% per year. During the strong equity markets of the late 1990s, the assets grew at nearly double that amount, and the funded status of the ERS was strengthened.

As of June 30, 2000 the ERS was nearly fully-funded, but because of the difficult financial markets in 2000-2002 and 2008-2009, plus increased liabilities for higher future benefit payments, the funded status decreased. As of June 30, 2015, the ERS was 89.7% funded. The area shown as the top layer reflects the additional amount required (\$420.7 million) for the ERS to achieve fully-funded status. As noted earlier, the Board continues to implement sound and prudent investment policies that will maximize the potential for long-term increases in the value of the assets.

# Retirement Savings Plan (RSP)

The County established the Retirement Savings Plan for all non-public safety and certain public safety employees not represented by a collective bargaining agreement hired after October 1, 1994. The Plan requires employees to contribute 4% of regular earnings up to the Social Security wage base and 8% above the wage base and public safety employees to contribute 3% up to the Social Security wage base and 6% above the wage base. During FY15, the County contributed 8% and 10% of regular earnings for non-public safety and some public safety employees, respectively.

## •How do I know if I'm a participant in this plan?

Employees who participate in the RSP have the following description on their pay stub next to the bi-weekly contribution amount: RET SAV.

## • How is my retirement benefit calculated?

Your benefit is based on your account balance at the time of retirement or separation of service. The balance includes your contributions, the County's contributions (if you're vested) and investment earnings.
